**ACCOMPLISH  
READING  
GROWTH  
THIS SUMMER!**

## SUMMER Literacy Programs

*Delivered by the most child-friendly, science-based reading center.*

Aspire Academy's Summer Literacy Programs will address the reading weaknesses that occurred during the pandemic — interrupted preschool, online teaching of key reading skills, and readers who struggle with decoding, spelling and handwriting. Scan the QR code to register for these programs:

- ✓ **Kindergarten Readiness**
- ✓ **K-3rd grade COVID Catch-Up**
- ✓ **4th-11th grade Struggling Readers**
- ✓ **Friday Fun Days**
- ✓ **Handwriting — Print or Cursive**

The American Academy of Pediatrics states that students who struggle to learn foundational reading skills or are below grade-level in middle school and high school, need a systematic phonics program, delivered in a one-on-one setting, at the student's pace to attain grade-level reading. Aspire Academy's Summer Literacy Programs use the Wilson Reading System, the leading systematic phonics program in the U.S., to teach the foundations of reading in a systematic, cumulative manner at your child's pace until they master literacy.

Our sessions are built around the five building blocks of reading and include: phonics, decoding, sight words, spelling, vocabulary, comprehension, fluency and handwriting.

**YOUR CHILD CAN SUCCEED!**

### ASPIRE ACADEMY'S SUMMER LITERACY PROGRAM DELIVERS:

**One-on-One** tutoring — choose in-person or online.

**Systematic Phonics** is the most researched and proven way to move struggling readers to fluent readers. Our lessons teach children how to crack the code for reading and spelling, and they develop the skill to sound out words they haven't read or written before. They can apply what they've learned because they are taught to sound out words, apply the rules and use these skills independently.

**Personalized** to your student's needs.

**Ages:** Entering Kindergarten — 12th grade.

**Dates:** June — August  
*Personalized to fit your schedule.*

**REGISTER TODAY!** Reserve your spot by calling (515) 978-4312, scan the QR code, or fill out the online registration form at:
